Quick Start Guide

3Play®

Quick Start Guide
1. Connect power cables to the rear panel and plug into an external power source
2. Switch power supplies to the ON position
3. Connect cable for User Interface monitor to the INTERFACE DVI port
4. Connect cable for Multiview monitor to the MULTIVIEW DVI port
5. Connect keyboard and mouse to USB ports
6. Plug in cameras using the appropriate VIDEO IN connectors
7. Plug in audio sources using the appropriate AUDIO IN connectors
8. Connect cables for video output to the appropriate VIDEO OUT connectors
9. Connect cables for audio output to the appropriate AUDIO OUT connectors
10. Connect control surface to 3Play USB port using the included USB cable
11. Connect Ethernet cable to 3Play ETHERNET port and plug into an active network connection
12. Open front panel and install removable hard drive(s) into drive bays
13. Power on 3Play and accept the End User License Agreement (press the keyboard button for ILLUMINATION to light keys if desired)
14. Locate the sticker with the Serial Number for your 3Play
15. Complete the required steps in the Register 3Play dialog box to proceed to the NewTek Registration site
16. Create a new User Account if needed, select your product to register, and then enter all required fields (valid e-mail address required)
17. Retrieve the Registration Code from the e-mail address used to register and write on the sticker for future reference
18. At the Startup Screen, choose a session name, record mode and resolution, then click Create Session
19. At the Session Screen, click Start Session
20. Double-click a camera input monitor to open the configuration panel
21. Select the appropriate camera connection type for the input and click close
22. Repeat steps 20-21 for each camera connected
23. Press the Record button on the control surface to begin recording
24. Press the IN and OUT buttons on the control surface to mark events for recall and playback

Update 3Play (Optional)

A. Connect Ethernet cable to the ETHERNET port and plug into an active network connection, as instructed in step 11
B. Register 3Play as instructed in steps 14-17, if needed
C. At the Startup Screen, select the Utilities icon
D. Click Update 3Play and follow the on-screen instructions to download and install software update, if available
This Quick Start Guide is designed so that you can set up your 3Play quickly and start using it right away. For comprehensive installation and operation instructions, please review the User Guide, accessible from the HELP menu of your 3Play system. Supplemental product training videos are also available online at www.newtek.com.

Rack rails are recommended for rack-mount installation of 3Play 4800 and can be purchased from an authorized NewTek reseller.

Appearance of hardware and software may vary slightly from system shown.
Registration is required to begin using your 3Play. If you have connected your system to the WEB, the NewTek Registration site will load automatically upon submitting your serial number. You may also register from any WEB browser at register.newtek.com.

1. Connect cables for audio output to the appropriate AUDIO OUT connectors.
2. Power on 3Play and accept the End User License Agreement (press the keyboard button for ILLUMINATION to light keys if desired).
3. Connect control surface to 3Play USB port using the included USB cable.
4. Connect Ethernet cable to 3Play ETHERNET port and plug in to an active network connection.
5. Open front panel and install removable hard drive(s) into drive bays.
6. Locate the sticker with the Serial Number for your 3Play.
7. Complete the required steps in the Register 3Play dialog box to proceed to the NewTek Registration site.
8. Create a new User Account if needed, select your product to register, and then enter all required fields (valid e-mail address required).
NewTek periodically issues free software updates and downloads for 3Play that provide enhanced performance and new features. Once your system is registered, you may immediately access these downloads by visiting your personal registration page at register.newtek.com.

Refer to the Update 3Play instructions located above or on the At a Glance page of your Quick Start Guide to optionally check for updates upon initial startup, if desired.

At a Glance

1. Connect the 3Play power supply to the DC IN port on the rear panel, and plug into an external power source.

2. Connect the keyboard and mouse using USB ports.

3. Connect the cable for User Interface monitor to the DVI port on the right.

4. Optional: Connect the cable for Multiview monitor to the HDMI port on the right.

5. Plug an Ethernet cable into the 3Play Ethernet port and connect to an active local network.

6. Optional: Mount and fasten the included bracket between the VIDEO and AUDIO ports on the front panel for additional cable security.

7. Connect an appropriate HDMI accessory cable to camcorder and plug in using VIDEO IN port 1; repeat using ports 2-4 for additional camcorders.

8. Connect the cable for HDMI output display to VIDEO OUT port 1; repeat using port 2 for second HDMI output display.

9. Optional: Plug in audio input and output devices using the appropriate AUDIO IN and AUDIO OUT jacks.

10. Press the power button and accept the End User License Agreement (press the keyboard button for ILLUMINATION to light keys, if desired).

11. Locate the sticker with the 15-digit Serial Number (s/n) for your 3Play and write down for future reference.

12. Enter your Serial Number as directed in the Register 3Play dialog box and write down the Product ID provided for future reference.

13. Click the button as directed in the Register 3Play dialog box to proceed to the NewTek Registration site.

14. Create (or log into) your User Account in the NewTek Registration System using a valid e-mail address.

15. Select 3Play Mini from the drop-down menu and click the Register Now button.

16. Enter your Serial Number (if needed), Product ID, and additional information as required, then click the Register button.

17. When you receive the email with your Registration Code, write it on the 3Play sticker for future reference.

18. Enter your Registration Code in the Register 3Play dialog box as directed, then click Continue to complete registration.

19. At the Home Screen, select the New icon.

20. Enter a Session Name and choose an Output Resolution.

21. Click the Create Session button to proceed to the Session screen.

22. Click the Start Session button to enter the Live Desktop.

23. Once you are in the Live Desktop, 3Play automatically detects each connected camcorder. (If you do not see video, make sure each camcorder is on and connected properly).

24. Click the Record button to begin recording and operate using any supported control method.

Update 3Play (Optional)

A. Plug an Ethernet cable into the 3Play Ethernet port and connect to an active local network as instructed in step 5.

B. Register 3Play as instructed in steps 11-18.

C. At the Home Screen, select the Utilities icon.

D. Click Update 3Play and follow the on-screen instructions to download and install software update, if available.
Quick Start Guide

3Play® Mini

Setup

1. Connect the 3Play power supply to the DC IN port on the rear panel, and plug into an external power source.

2. Connect the keyboard and mouse using USB ports.

3. Connect the cable for User Interface monitor to the DVI port on the right.

4. Optional: Connect the cable for Multiview monitor to the HDMI port on the right.

5. Plug an Ethernet cable into the 3Play Ethernet port and connect to an active local network.

6. Optional: Mount and fasten the included bracket between the VIDEO and AUDIO ports on the front panel for additional cable security.

7. Connect an appropriate HDMI accessory cable to camcorder and plug in using VIDEO IN port 1; repeat using ports 2-4 for additional camcorders.

8. Connect the cable for HDMI output display to VIDEO OUT port 1; repeat using port 2 for second HDMI output display.

9. Optional: Plug in audio input and output devices using the appropriate AUDIO IN and AUDIO OUT jacks.

10. Press the power button and accept the End User License Agreement (press the keyboard button for ILLUMINATION to light keys, if desired).
Registration - Required

1. Locate the sticker with the 15-digit Serial Number (s/n) for your 3Play and write down for future reference.

2. Enter your Serial Number as directed in the Register 3Play dialog box and write down the Product ID provided for future reference.

3. Click the button as directed in the Register 3Play dialog box to proceed to the NewTek Registration site.

4. Create (or log into) your User Account in the NewTek Registration System using a valid e-mail address.

5. Select 3Play Mini from the drop-down menu and click the Register Now button.

6. Enter your Serial Number (if needed), Product ID, and additional information as required, then click the Register button.

7. Enter your Registration Code in the Register 3Play dialog box as directed, then click Continue to complete registration.

Registration is required to begin using your 3Play. If you have connected your 3Play to the Web, the NewTek Registration site will load automatically upon submitting your Serial Number. You may also register from any Web browser at register.newtek.com (Serial Number and Product ID required).

Be sure to record your User Account login and password, Serial Number, Product ID, and Registration Code, and store in a safe place for future reference when accessing software updates and downloads, contacting NewTek Customer Support, or performing a system restore.
Getting Started

19. At the Home Screen, select the New icon.

20. Enter a Session Name and choose an Output Resolution.

21. Click the Create Session button to proceed to the Session screen.

22. Click the Start Session button to enter the Live Desktop.

23. Once you are in the Live Desktop, 3Play automatically detects each connected camcorder. (If you do not see video, make sure each camcorder is on and connected properly.)

24. Click the Record button to begin recording and operate using any supported control method.

NewTek periodically issues free software updates and downloads for 3Play that provide enhanced performance and new features. Once your system is registered, you may immediately access these downloads by visiting your personal registration page at register.newtek.com.
